**SOLID WASTE FACILITY PERMIT**

Facility/Permit Number:

40-AA-0001

**17. EA Conditions:**

- a. This facility shall comply with all federal, state and local requirements and enactments including all mitigation measures given in any certified environmental document filed pursuant to Public Resources Code, Section 21081.6.
- b. The owner/operator shall maintain copies of this and all other permits issued for the operation of this facility, a copy of the most recent inspection report, a copy of the most recent printing of the Combined State Water Quality Control Board/California Integrated Waste Management Board Regulations [California Code of Regulations (CCR), Title 27, Division 2] and other documents required by 27 CCR 20515.
- c. This permit is subject to review by the EA and may be suspended, revoked or modified at any time for sufficient cause.
- d. The EA reserves the right to suspend or modify waste-receiving operations when deemed necessary due to an emergency, a potential health hazard or the creation of a public nuisance.
- e. The operator shall maintain a log of special occurrences. The log shall include, but is not limited to:  
 Surface fires, underground fires, explosions, earthquakes, discharge of hazardous substances, significant injuries, accidents or property damage. Each log entry shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The operator shall maintain this log at the facility so as to be available at all times to site personnel and EA personnel.
- f. The owner/operator shall forward any complaints, excepting fee complaints, pertaining to the facility to the EA within 24 hours of receipt.
- g. Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited. Such a change may be considered a significant change, requiring a permit revision. In no case shall the operator implement any change without first submitting a written notice of the proposed change to the EA at least 150 days in advance of the change.
- h. The owner/operator shall not accept more than a total of 250 tons of waste at the facility on any given day. This limit pertains to all waste destined for land disposal. The limit does not pertain to clean dirt or source-separated materials put to beneficial use either at the facility or exported for the purpose of resource recovery.
- i. Discharge of de-watered sewage sludge or water treatment sludge shall be conducted in accordance with the governing Waste Discharge Requirements. Use of de-watered sewage sludge and water treatment sludge as a soil amendment to promote vegetation is authorized provided this practice is conducted in accordance with Regional Water Quality Control Board requirements. Co-disposed sludge shall count toward the 250 ton per day maximum limit and the applicable annual maximum limit.
